Easter Egg Hunt in Spite of the Rain!

A steady rain did not stop the Women's Club and other volunteers from joining the Easter Bunny on Saturday, March 30 to host the annual Women's Club egg hunt on the lawn of Trinity United Methodist Church.

General Meeting set for May 14

Hello neighbors. Your Civic Association will host our annual Civic Association Meeting on Tuesday May 14 th at 7:00 P.M. The meeting will be held at the same location as last year, The Unity Church, located at 4211 Maize Rd. We again want to thank the Unity Church for graciously agreeing to facilitate our neighborhood meeting.

We are excited to announce our guest speaker will be City Councilman **Emmanuel V. Remy**. Council member Remy represents the newly formed District 4. I have been asked by council member Remy's staff if there are specific questions or areas of interest. If you

do have specific questions or topics you would like to cover in the meeting, please forward the items to me via email at bamorin6@gmail.com prior to May 6th.

I will be certain to forward your communication to the Council member Remy's staff.

Hope to see you on May 14th, to not only meet your neighbors, but to take advantage of this great opportunity to meet and discuss your personal areas of interest with your local City Council Representative.

MESSAGE FROM THE PRESIDENT OF MMTACA

Hello fellow members of the Maize Morse Tri Area.

Please take a look at the published upcoming 2024 events for our neighborhood noted in this newsletter. We do make an effort to publish flyers throughout the year as a reminder of upcoming events as well as posted signage throughout the neighborhood. The monies received from your membership fee goes toward funding these great neighborhood events.

Hopefully you have been able to attend at least one of the many activities sponsored by your Civic association. If you have not previously, give it a try, come and meet your neighbors! I am certain you will find the events very welcoming and friendly, reflective of our great neighborhood.

This newsletter was distributed with a copy of the membership application. This application can also be found on our neighborhood website: maizemorseneighborhood.com.

We are very excited to share with you that we have updated the member application on the website to include a Venmo link that will allow you to pay your membership fee (\$15) electronically. If you do take advantage of this electronic option of payment, please be sure to note the reason for the payment: Membership Fee, MMTACA .

Of course you can still make a payment via cash or check, mailing , or dropping off the payment to my address as noted on the membership application, 978 Hillsdale Drive.

Also noted on the membership form are areas of interest. As an Association, we are always in need of folks to assist in the yearly events.

Thanks again for being a part of this great community we call our neighborhood.

Barb Morin
President, MMTACA

Keep your car safe from theft

With break-ins and car thefts on the rise, let's all be diligent and report any suspicious behavior. It's been especially recommended that Kia and Hyundai owners purchase an Anti-Theft Steering Wheel Lock. Prices range from \$20-\$40. Stay safe everyone!

Some good reads for young Parents

It's been enjoyable having so many young families in our neighborhood and we want to say "hats-off" to all the parents! Parenting is the greatest joy and can be a great challenge and so for those interested, here are a few reading recommendations that you might find helpful.

Enjoy!

Have you noticed the Cannas?

Your civic association hopes that everyone has noticed the tall green plants growing around the lampposts in our neighborhood every summer. These are canna bulbs and halfway into summer you should also see red flowers adorning the top of each plant.

Cannas definitely fall into the low-care category during the summer. They need little water, thrive in direct sun and grow with or without extra fertilizer. Every May, volunteers plant hundreds of bulbs in the Maize-Morse area.

Fortunately each bulb self-reproduces several times throughout the growing season. This means that when we dig each plant up in the fall there are four times as many bulbs compared to what we started with. In the fall, bulbs that did not reproduce well are left in the ground to become fertilizer for next year's planting.

Every Home is Unique

I live in the neighborhood and have a vested interest in our area's property values. Each transaction is different, so call me when you're ready to buy or sell.
